

# Accessibility Awareness Continuum: Communication

There will always be scope to improve

**Indicator:** Students and staff communicate effectively and demonstrate ease with a variety of communication tools and methods.

Our School Environment	Our Classrooms	Our Students
<p>How do we ensure that members of the staff are able to model a variety of effective communication tools?</p> <p>How do we ensure that staff members are able to help students learn and practise using a variety of effective communication tools?</p> <p>How are staff members encouraged to routinely employ diverse modes of communication that support an inclusive culture?</p> <p>How do we collaborate with support teams and agencies to access training in the effective use of communication devices?</p>	<p>What does effective communication look like in a classroom that values accessibility?</p> <p>How can we incorporate a variety of communication methods into our everyday instruction to support a culture of accessibility?</p>	<p>How do we know that all students have a way to communicate?</p> <p>In what ways do students show that they are at ease in routinely employing diverse modes of communication that support an inclusive, accessibility-oriented culture?</p> <p>How do students demonstrate their familiarity with a variety of communication protocols and use them in the classroom?</p> <p>How do students demonstrate that they value and respect the importance of learning and using a diversity of ways to communicate?</p>
